

OCEAN MICROSTRUCTURE GLIDER WORKSHOP

JUNE 10–14, 2019

Victoria BC, Canada

PRELIMINARY PROGRAM

OMG 2019 is a training program for Rockland turbulence measurement systems that are integrated with ocean gliders.

Day 1, June 10 Classroom

- Welcome Orientation & Tour of Rockland Facility
- Introduction to Turbulence & OMG systems
- MicroRider / Vehicle Communication
- Invited Speaker

Day 2, June 11 Field Day

- Pre-deployment
- Glider Deployment

Day 3, June 12 Classroom

- MicroRider Maintenance
- Data Conversion and Processing
- Invited Speaker

Day 4, June 13 Classroom

- Advanced Data Processing
- Ocean Turbulence Theory & Measurement Techniques
- System Integration & Mid-Mission Troubleshooting

Day 5, June 14 Classroom

- Invited Speaker
- Special topic discussions

OMG 2019 is hosted at Rockland Scientific headquarters. Training modules provide pertinent content for both scientists and technicians and are facilitated by instrument specialists from Rockland.

Fees to attend OMG 2019 are \$1,650 USD and do not include transportation & accommodation.

Space is limited. Register early by contacting Nicole info@rocklandscientific.com. Special hotel room rates available for limited time.
